Town Warrant.

COMMONWEALTH OF MASSACHUSETTS.

MIDDLESEX SS.

To any Constable of the Town of Weston. GREETING :

In the name of the Commonwealth you are hereby required to notify and warn all the inhabitants of the said town, qualified by law to vote in elections and in town affairs, to meet in the Town-hall, in said town, on the twenty-fifth day of March, current, at one of the clock in the afternoon, for the following purposes, to wit : —

First. To choose a Moderator.

Second. To choose the usual Town Officers.

Third. To hear and act upon the reports of Town Officers and Committees.

Fourth. To accept the list of Jurors as revised by the Selectmen and posted according to law.

Fifth. To vote on a separate ballot, “Yes” or “No,” in answer to the question, “Shall licenses be granted for the sale of intoxicating liquors in this town?”

Sixth. To determine whether the Town will purchase a Steam Roller, provide a suitable place to house the same, and appropriate money therefor.

Seventh. To determine whether the Town will rescind its action, heretofore taken, in voting to elect Road Commissioners, and thereby abolish the office of Road Commis-

sioner, as provided in the Revised Laws, Chapter 11, Section 341.

Eighth. To determine whether the Town will authorize the Selectmen to locate and maintain electric lights on the following streets: Summer Street, Viles Street and Conant Road, and appropriate money therefor.

Ninth. To hear the report of the Committee appointed at a special Town meeting, held April 30, 1906, to consider the question of schoolhouse accommodations or take any action relative thereto.

Tenth. To hear the report of the Committee appointed at the last annual Town meeting, to recommend improved methods for caring for highways or take any action relative thereto.

Eleventh. To determine whether the Town will adopt the by-laws recommended by the Committee on Improved Methods for caring for Highways, and made a part of their report.

Twelfth. To raise and appropriate, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the Town for the ensuing year; and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any Town Officers or Committees in their reports.

And you are to serve this warrant by posting three attested copies thereof according to the vote of the Town; namely, at the Town-house, at the Kendal Green post-office, and on the town bulletin-board at the junction of South Avenue and Newton Street and Park Road, seven days at least before the time appointed for said meeting.

Hereof fail not ; and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the time appointed for said meeting.

Given under our hands this seventh day of March, in the year of our Lord One Thousand Nine Hundred and Seven.

FRANCIS BLAKE,
NATHAN S. FISKE,

In accordance with the provisions of Article 14 of the Town By-laws, the Board have twice during the year made a thorough examination of the accounts of the Town Treasurer and Collector and the condition of the treasury.

In the course of these examinations all payments made by the Treasurer were verified by reference to approved vouchers or endorsed cheques. The receipts from taxes were verified by reference to the Assessors' tax warrants. The bank accounts were found to agree with the pass-books, after making allowance for outstanding cheques; and, in general, all moneys in charge of Mr. Henry J. White, as Town Treasurer and Collector, Library Treasurer, and Treasurer of the Merriam Fund for the Silent Poor, were properly accounted for.

Section 79, Chapter 25, of the Revised Laws, reads as follows:—

The auditors of a town shall examine the books and accounts of all its officers and committees who are intrusted with the receipt, custody or expenditure of money, and all original bills and vouchers on which money has been or may be paid from its treasury. They shall have free access to such books, accounts, bills and vouchers as often as once a month, for the purpose of examination, and shall examine the same at least once in each year, and annually report in writing the result of their examinations.

The Selectmen therefore recommend that Article 14 of the Town By-laws be repealed at the next annual town-meeting.

Weston Water Company.

Page Murder.

Two days after the murder the Selectmen published the following notice: —

\$2500 REWARD!

The Selectmen of the Town of Weston, acting under the provisions of the Revised Laws of the Commonwealth, offer the sum of \$500; and in behalf of a number of their fellow townsmen an additional sum of \$2,000, making a total sum of \$2500; as a reward for information which shall lead to the arrest of the person or persons who murdered Miss Mabel Page at her home on South Avenue, Weston, March 31, 1904.

FRANCIS BLAKE,
NATHAN S. FISKE,
ALFRED L. CUTTING,

WESTON, MASS., April 2, 1904.

Selectmen of the Town of Weston.

The provisions of the Revised Laws referred to in the notice are contained in Chapter 217, Section 10, which reads as follows:—

The mayor and aldermen of a city or the selectmen of a town, if in their opinion the public good so requires, may offer a suitable reward of not more than five hundred dollars in any one case to be paid by such city or town to any person who, in consequence of such offer, detects or secures a person who has committed a felony in such place, either before or after he has been charged therewith, and such reward shall be paid by the treasurer upon the warrant of the mayor and aldermen or selectmen. If more than one claimant applies for the payment of such reward, the mayor and aldermen or selectmen shall determine to whom it shall be paid, and if to more than one person, in what proportion to each; and their determination shall be final.

The Selectmen are of the opinion that no claimant to the reward of \$500 offered by them, in behalf of the Town, has shown that he is entitled thereto.

There are several claimants to the reward of \$2,000 offered by the Selectmen in behalf of a number of their fellow townsmen; but, as the Selectmen are uncertain as to what person or persons (if any) it should be paid, they have left the several claimants to take such action as they deem wise.

California Relief.

On April 20, 1906, the Board received the following telephone message from Governor Guild :—

Chairman Board of Selectmen, Weston, Massachusetts.

I urgently request you to arrange, under yourself as Chairman, a local committee to raise funds for the relief of the California earthquake sufferers.

All sums raised may be sent through me to Kidder, Peabody & Co., treasurers of the general fund. Full credit should be given by you to all contributors. Full credit will be given each city and town by the general treasurers. Immediate action necessary. Let the whole Commonwealth act together.

All funds thus sent will be telegraphed by special arrangement.

CURTIS GUILD, JR.,
Governor.

In the absence of the Chairman, Messrs. Fiske and Cutting, through telephone communication, appointed the following persons to serve as a

LOCAL COMMITTEE FOR THE CALIFORNIA RELIEF FUND.

Alfred L. Cutting, *Chairman*.

Robert Winsor.	F. H. Hastings.	Arthur L. Coburn.
Charles H. Jones.	Livingston Cushing.	Charles H. Fiske.
Nathan S. Fiske.	Patrick J. McAuliffe.	

Mr. Patrick J. McAuliffe rendered excellent service soliciting funds. The response of our citizens was generous, and on April 26 the contribution of the town of Weston, amounting to \$5,020, was paid to Messrs. Kidder, Peabody & Co., the general treasurers.

Subsequently \$122.85 was contributed by Weston citizens through Saint Mary's Church, Newton Lower Falls.

Locations for Poles and Wires in Town Ways.

During the year the Selectmen have authorized the location of poles and wires in town ways in accordance with the provisions of the By-laws of the town, and the Revised Laws of the Commonwealth, as follows : —

Weston Electric Light Company, location for four poles on Summer Street and six poles on Maple Road.

New England Telephone and Telegraph Company, locations for poles on Ash Street, Conant Road and Viles Street.

Rabies.

Owing to the presence of rabies throughout the Commonwealth and the appearance of at least one well-defined case within our town limits, the Board, on Nov. 26, 1906, issued the following order :—

TOWN OF WESTON, MASSACHUSETTS.

OFFICE OF SELECMTEN.

NOVEMBER 26, 1906.

To all owners or keepers of dogs within the town of Weston :

In accordance with the provisions of Chapter 102, Section 158, of the Revised Laws of the Commonwealth, a copy of which is appended, you are hereby ordered to immediately muzzle or restrain from running at large any dog or dogs owned or kept by you, for a period of sixty days from the date of this order.

FRANCIS BLAKE,
NATHAN S. FISKE,
ALFRED L. CUTTING,
Selectmen of the Town of Weston.

SECTION 158. The mayor and aldermen of a city or the selectmen of a town may order that any dog within the limits of such city or town, respectively, shall be muzzled or restrained from running at large during such time as shall be prescribed by such order. After passing such order and posting a certified copy thereof in two or more public places in such city or town or, if a daily newspaper is published in such city or town, by publishing such copy once in such newspaper, the mayor and aldermen and selectmen may issue their warrant to one or more of the police officers or constables of such city or town, who shall, after twenty-four hours from the publication of such notice, kill all dogs found unmuzzled or running at large contrary to such order, and who shall receive such compensation therefor as is provided in section one hundred and forty-three.

Soon after the expiration of this order, in response to the request of Dr. Austin Peters, Chief of the Cattle Bureau, order number 2, dated Feb. 2, 1907, and covering a period of thirty days, was issued.

Gypsy and Brown-tail Moths.

On Feb. 28, 1906, Mr. Edward P. Ripley was appointed Local Superintendent, to succeed Mr. Franklin G. Cooper, who was compelled to resign because of a press of other matters. Mr. Ripley took charge of the work on March 12, 1906.

His work has been very efficient and highly commended by the representatives of the Gypsy and Brown-tail Moth Commission of the Commonwealth. We append herewith Mr. Ripley's letter regarding his work and earnestly bespeak for him the hearty co-operation of the land owners throughout the town : —

WESTON, MASS., Feb. 28, 1907.

To the Selectmen of the Town of Weston :

GENTLEMEN : — I herewith submit the following report : By direction of Mr. C. W. Minott, Field Director of the Gypsy Moth Commission, I have organized two crews of men well trained to their various duties. One crew works in the south part of the town ; the other has charge of the remainder of the territory.

In the absence of the Superintendent, each crew is in charge of a competent man. Almost every section of the town has been found to be infested with the gypsy moth. With a careful search for egg clusters, followed by the use of burlap during the larva season, it is comparatively easy to care for our street, shade and orchard trees.

The woodland problem is far different and the increase the past season has been enormous. To illustrate : In one wood lot of twenty-three acres in which last winter 700 egg clusters were found we have already treated 25,000 ; in another estate consisting largely of woodland, 600 clusters were treated last year and 8,000 this, with more land to search.

The present winter has been very unfavorable for thorough exterminative work, owing to the ground being covered with snow. Such weather as we have been unable to scout to advantage, we have utilized thinning badly infested places, preparatory to burlaping the remaining trees in the spring. Two gentlemen in the south part of the town have also done extensive thinning on their estates.

As to the brown-tail moth, their numbers are greatly reduced, owing to two causes, — first, the thorough work done by the force under Mr. Cooper last winter ; second, to a disease that attacked them at the close of the feeding season, due, probably, to the hot, moist weather. The Superintendent wishes to acknowledge his appreciation for the hearty support given by the majority of land owners, and hopes the interest will be continued.

It is only by such co-operation that the hoped-for results can be obtained. In conclusion, I cannot too strongly urge land owners to be ever on the alert to discover outbreaks of the moths on their property. A trip through some of the cities and towns to the east of us during the feeding season of

the caterpillars will convince even the most skeptical of the terrible ravages of the pests, and I sincerely hope Weston may be spared the conditions found in them.

Very respectfully,

EDWARD P. RIPLEY,

Local Superintendent.

Miscellaneous.

On April 14, 1906, the following vote was passed:—

“*Voted* : That Samuel C. Bennett, Esq., be appointed Legislative Counsel, to appear in behalf of the Town, before all committees of the Great and General Court, in all matters of legislation.”

On June 9, Messrs. George W. Cutting & Sons were granted a license to sell fireworks.

On July 14, the following vote was passed:—

“*Voted* : To grant permits for the transportation of intoxicating liquors, under the provisions of Chapter 421, of the Acts of 1906, to the American Express Company, at Weston Station, and the National Express Company, at Stonybrook, Hastings and Kendal Green.”

On Nov. 10, the following vote was passed :—

“*Voted* : That Samuel C. Bennett, Esq., be requested, in behalf of the Selectmen, to oppose the establishment of any Sewage Disposal Filtering Beds which might be a nuisance to inhabitants of the town.”

(The above vote was the result of the Board receiving information that the town of Wellesley was considering the matter of establishing Sewage Disposal Beds near the Weston line.)

During the year the Board have drawn orders on the Town Treasurer for the payment of approved bills to the amount of \$73,638.88.

FRANCIS BLAKE,

NATHAN S. FISKE,

ALFRED L. CUTTING,

Selectmen of the Town of Weston.

Report of the Road Commissioners.

The Road Commissioners respectfully submit the following report for the year ending Feb. 28, 1907:—

At the regular monthly meeting of the Board, April 5, 1906, Mr. Thomas E. Coburn was re-elected Chairman, and Mr. Augustus M. Upham re-elected Secretary.

The money appropriated for highways has been expended on the several streets as follows:—

Brown Street	\$15.00
Crescent Street	15.00
Central Avenue	10 00
Church Street	300.00
Chestnut Street	50.00
Concord Road	200.00
Conant Road	430.00
Glen Road	673.00
Highland Street	120.00
Lexington Street	100.00
Lincoln Street	10.00
Loring Street	11.00
Merriam Street	155.00
Maple Road	30.00
Newton Street	1000.00
North Avenue	660.00
Oak Street	25.00
Park Road	75.00
Pigeon Hill	100.00
Pine Street	200.00
River Street	150.00
Riverside Road	50.00
Ridgeway Road	50.00
School Street	800.00
South Avenue	500.00

Sudbury Road	\$75.00
Summer Street	60.00
Viles Street	25.00
Wellesley Street	700.00

The balance has been expended in repairing the bridge between Weston and Newton, on Riverside Road, rent of steam roller, and other items which will be found in the Auditor's Report.

On Glen Road the money has been expended in blasting ledges and laying wall back to the line, as ordered by the County Commissioners. The new location of School Street was under the supervision of the County Engineer, and was let under contract to the William H. Mague Company. The roadway was macadamized and the walls relaid on the new lines. Mr. Pennock's buildings were moved under another contract. The Commissioners think it would be a good policy for the Town to purchase a steam roller. We cannot always get a roller when we need one, and if the Town owned one we should use it more.

The sidewalk appropriation was let out by contract, Hayes Brothers being the lowest bidder. Concrete walks have been laid on North and Central Avenues, and on Church Street between the house of A. L. Coburn and the Weston depot. There have been quite a number of calls for a concrete walk on Concord Road, between Central Avenue and Cherry Brook station, and we recommend an appropriation for the same.

We wish to call the attention of the Town to the bridge on River Street, which is in a bad condition, and will soon have to be rebuilt.

Wellesley Street, between South Avenue and the Wellesley line, is a very narrow and crooked street, and has been

re-located by the County Commissioners to a width of fifty feet. Some of the sharpest turns have been straightened and a great improvement will be made when finished.

We would recommend the following appropriations for the ensuing year: —

Highways	\$7500
Sidewalks	1500
Snow bills	500
Gravel and crushed stone	2000

Guide boards are maintained at the following places: North Avenue and Lexington Street, North Avenue and Church Street, North Avenue and Conant Road, North Avenue and Lincoln Street, Concord Road and Merriam Street, Concord and Sudbury Roads, Central Avenue and School Street, Central Avenue and Wellesley Street, Wellesley and Newton Streets, Newton and Ash Streets, South Avenue and Wellesley Street, South Avenue and Ridgeway Road, South Avenue and Park Road, South Avenue and River Street, River and Loring Streets, Wellesley Street and Glen Road, and Park and Riverside Roads.

THOMAS E. COBURN,
AUGUSTUS M. UPHAM,
CHARLES B. CUTTER,
Road Commissioners.

Report of the School Committee.

The School Committee respectfully submit the following report for the year ending Feb. 28, 1907:—

At the annual town meeting held on March 26, 1906, Mrs. Carolyn E. Burrage was re-elected a member of the Committee. At an adjourned meeting of the Committee on April 5, 1906, Mr. Samuel C. Bennett was elected Chairman, and Mr. Edward Fiske was elected Secretary.

Twelve regular monthly meetings have been held during the year, and also three extra meetings, one of these being an adjournment of the regular April meeting.

Under the authority of Chapter 46, Section 12, of the Revised Laws, the Committee appointed Mr. Franklin G. Cooper and Mr. Darius B. Vittum to serve as truant officers for the ensuing year.

At the September meeting the Committee appointed Miss Mabel E. Dunn enumerator, under the authority of the Revised Laws, Chapter 43, Section 3. Her report is as follows:—

In September the number of boys between the ages of five and fifteen was 147; girls between ages of five and fifteen, 146.

Number of boys between the ages of seven and fourteen, 111; girls between the ages of seven and fourteen, 103. Illiterate minors over fourteen years of age, none.

On April 5, 1906, the Committee re-elected Mr. Charles M. Eaton Superintendent of Schools. His report to the Committee is as follows:—

WESTON, Feb. 28, 1907.

TO THE SCHOOL COMMITTEE:

Another year of our schools has passed without great or far-extended change in their conduct. The usual variety of detail has been present in the work, however, and to some of these details I wish to call your attention.

The use of the swimming-pool of the Weston Athletic Association has been most helpful and important. The school children were admitted to it by classes during a part of the month of June, and during the summer once weekly, at their convenience, on tickets provided by the school. During the month of September the classes were resumed, and the season closed with an exhibition at which parents and friends were generally present.

The children themselves have sufficiently declared the pleasure of this opportunity. Of its profitableness it is enough to say that twenty-three girls and twenty-two boys who could not swim at all in June were able to swim with confidence and skill in September. This remarkable result was due in part to the zeal of the boys and girls themselves; in part to the enthusiasm and wholeheartedness of the swimming instructor, Mr. Christie.

In all, the admissions of school children to the pool totalled 1,108, distributed as follows:—

	BOYS	GIRLS
June	153	52
July	127	131
August	93	166
September	244	142
	<hr/>	<hr/>
	617	491

$617 \text{ and } 491 = 1,108$

At present the building connected with the pool is opened three times weekly for the boys, and twice weekly for the girls, under care of competent instructors, for gymnasium practice, and for shower baths.

It is sincerely to be hoped that the use of this pool will be a regular feature of the school advantages of our town in all subsequent years.

For several years I have been desirous of having some form of hot food which might be bought by the pupils of the schools upon the premises at noon. At last a plan has been formulated which is working with reasonable success. Daily, hot soup or chocolate is sent in to the school to be sold to the pupils at four cents per cup. An average sale of about forty-five portions per day is maintained, and that number of pupils and teachers daily have the benefit of a stimulating and nourishing hot lunch in small but satisfactory quantity. The pupils themselves take turns in serving it and caring for the dishes. Not alone has this plan given a hot food to the many who must remain through the noon hour, but it has tended to make the noon lunch more social and less hurried, among the older pupils especially, with distinct advantage to them.

One of the interesting episodes of the fall term was the visit to our town of one of the English teachers who have been inspecting the schools of America under the patronage of that Mr. Mosely who some years ago sent over a body of English workingmen to become acquainted with their American cousins.

The gentleman who visited us was much surprised that so rural a community should enjoy such excellent and expensive school equipment. That the schools of Weston particularly impressed him is evidenced by the copy of a paper, which I have lately received, containing a report of his experiences in this country, in which his visit to our town takes precedence over all other of his experiences in this country. Parents who have followed the work of the school in music will be interested to know that he spoke in the highest terms of the singing of the scholars, and found in it a real zeal and musical ability. Such visits are most interesting and stimulating to the teachers in their work.

The midwinter entertainment of the High School has passed from the list of things to be noted to a thing to be taken for granted. Long may it stay in that column. Many a boy and girl has found in it a stimulus to better work and few or none have harmed their other work by the time given to it. The money from the debate of last winter has as usual been expended in books, pictures and similar helpful things.

A requirement of the High School in regard to athletics, tacitly observed in other years, has been this year definitely settled as the policy of the school: no pupil shall represent the school on any athletic team who is not in good and regular standing in his studies. This requirement is in use in other schools, and its justice is generally recognized by the pupils, as its need long has been by teachers.

It is gradually being realized by all connected with public high schools that if the large sums of money spent upon them are to be to some degree wasted by pupils, who do not even pretend to study, but use the school as a social or athletic club, there will some day be an end to the readiness of the taxpayer to put his hand in his pocket and pay for higher education. I believe that every boy or girl who flagrantly wastes his time in high schools is in his small way a menace to the system.

Many thoughtful people are now somewhat concerned at the large sums raised by taxation for high schools. They have no fears when they see returns for their money, and the best returns are not basket-ball or even baseball championship, but earnest, sturdy, studious girls and boys. Such are we trying to turn out in our graduating classes,—and we point with pride to our graduates.

The Grammar and Intermediate Schools continue to be badly crowded. The work done in them is good, however, but not so good as would be done if a different adjustment were possible. Effort is made in all the schools, by the music, drawing, manual training, and gymnastics, to make the daily work interesting and to avoid monotony, but the road to learning has always been, and always will be, uphill. Above all, we have sought to have good reading, good writing, good arithmetic, and good spelling. We are a little old-fashioned in that, but we have always been so, and are being

joined in our views by other towns whose schools have tried and given up certain "new-fashioned" methods and ways.

In this connection it is well to note that during the year the schools of the city of Boston have entered upon the eight-grade system, which Weston has never departed from.

In the Upper Primary School Miss Findeisen resigned to take a position in a near-by town. Miss Brothie was transferred to this school from the South School, and Miss McKenna undertook the work which Miss Brothie laid down. These changes seem likely to be very advantageous. In the High School, Miss Byron resigned her position for personal reasons, and Miss Davenport, a Radcliffe graduate, was added to the teaching force.

The attendance reports of the schools show an increase in attendance, and in every way the spirit of the work now being done in the schools is good and zealous, with due allowance for the imperfection of all things human.

Yours truly,

CHARLES M. EATON.

Teachers, Schools and School Attendance.

At the meeting on April 5, 1906, Mr. Charles M. Eaton was re-elected Master of the High School, and the following teachers were also reappointed: Miss Helen E. Warren, Miss Helen M. F. Byron and Miss Emma F. Ripley, High School; Miss Eunice Caldwell, Grammar School; Miss Alice L. Hosmer, Intermediate School; Miss Maud F. Findeisen, Upper Primary School; Miss Emily F. Adams, Centre Primary School; Miss Dora L. Kirwin, Assistant in Grammar School Building; Miss Elizabeth J. Viles, District No. 4; Miss Harriet M. Brothie, District No. 5; Mr. Charles E. Boyd, Mr. Philip E. Perry and Miss Sarah E. Jewett were re-elected, respectively, teachers of Music, Manual Training and Drawing. Miss Alice L. Hosmer was reappointed Principal of the Grammar School Building.

Miss Byron having declined to accept her re-election, Miss Warren was elected to the vacancy so caused, and Miss Anna C. Davenport was elected to the position formerly occupied by Miss Warren. In October Miss

Findeisen resigned her position as teacher of the Upper Primary School, and the Committee voted to elect Miss Brotchie to succeed her, also to elect Miss A. Rebecca McKenna to succeed Miss Brotchie as teacher of the school at District No. 5.

The Committee has sent to Miss Viles a letter which is here reprinted: —

WESTON, March 5, 1907.

Miss ELIZABETH J. VILES, *Weston, Mass.*

Dear Miss Viles,—The School Committee have recently noted that its records show that you first began to teach in the schools of the town on Monday, March 25, 1872. Within a few days it will be thirty-five years

since your service began in the District Number Five School on South Avenue. Thirty-five years of continuous service is a long period, and we feel that the Town of Weston and its citizens, past and present, owe it to themselves and to you to make some public recognition of a fact which is so greatly to your credit.

It is unnecessary to say what we all are anxious to say, that your long term of service has been eminently successful and satisfactory from the first. Times have changed and methods of teaching have changed, but for thirty-five years there has been one uniform and constant factor in the educational problems of this town. The children whose good fortune it has been to attend at Miss Viles's school have always been prepared for promotion. They have been taught, and thoroughly taught, and educated in the truest sense. Not only have they learned much, but they have been taught how to learn more. Many a pupil, now grown to manhood or womanhood, remembers with pleasure and gratitude the instruction received at your hands.

It is the still waters that run deep. The work done in your school-room is done so quietly that an unskilled observer might be misled into thinking that little or no work was done at all. But to one whose eyes have been opened the sight is fascinating. The dull child is encouraged, the inaccurate one corrected; the boisterous are repressed, the wayward checked, and the numerous duties of the school-room are faithfully discharged with a patience, energy and accuracy that are of more value, inasmuch as they are taught by a living example, than anything your pupils learn in the books.

We congratulate you on your long period of successful service in your chosen work. We congratulate the Town on its good fortune in having had you for thirty-five years upon its staff of teachers. We congratulate our predecessors and ourselves in having had your assistance in the matters entrusted to our care. We wish you many years of health and happiness to come.

Very sincerely and respectfully yours,

CAROLYN E. BURRAGE,
SAMUEL C. BENNETT,
EDWARD FISKE,

The School Committee of Weston.

Our Schools as Seen from Abroad:

Mr. Clayton, the English teacher referred to by Mr. Eaton in his report, recently read a paper at the annual meeting of the East Yorkshire County Association of the

National Union of Teachers, at York, England. It has seemed to the Committee that this paper is of much interest to the Town, and it is here reproduced:—

American Consolidated Schools.

Mr. W. Clayton, in his paper on “American Consolidated Schools,” said it had been his privilege to visit America recently as one of the Mosely Commission to study the educational systems and methods in vogue in the United States and Canada, and when asked to read a paper on that occasion he selected a topic which he thought would interest them most as representatives from a large rural area. The title of his paper might be a little confusing to an audience of English teachers, so he would explain that it meant a central rural school serving a much wider area than they were accustomed to in England. In America, the administration of education in the rural areas was in the hands of a popularly elected Board of Education, whose rule was supreme over an American town. Incidentally, he would point out that a town in America was not a collection of houses grouped together containing upwards of 3,000 inhabitants,—that was a city,—but a rectangular district, anything from six to sixteen miles long, and four to eight wide, similar in many respects to Rural District Council areas in this country. The men elected on the boards were not tinkers, tailors, cobblers, and such like, but senators, congressmen, merchants, and men of similar culture, all keenly alive to the value of learning, and heedless of the money spent upon it if only they could beat their neighbors on all sides of them with their schools. Thirty years ago, American teachers recognized the great difficulty of finishing the education of the child in the small, single schools, and set their wits

to work to devise a remedy. An experiment was made with a central school at Concord, near Boston, Mass. Two splendidly planned and equipped buildings were erected; they appointed a headmaster and charged him with putting the schools in his district under one scheme of organization. The curricula of the remaining nine schools had been arranged so that all were working the same subjects, and the new central schools were at once nearly filled by the transference of children in Grade V. and upwards from the neighboring schools. Those scholars within a distance of two miles were expected to walk; the rest were conveyed at the expense of the taxpayers by wagonette or 'bus. The venture was a success from the first. The Primary School started with 150 pupils, and the High School with 40. That was twenty-five years ago; now there are 600 pupils in the one, and 415 in the other. The result of the experiment was, that other educational authorities in America copied the example of Concord, so that in less than a quarter of a century consolidated schools had been erected, organized, and made successful educationally in most of the seaboard States and several of the interior ones. Referring to a recent visit to one of the American schools at Weston, 40 miles from Boston, the speaker said the whole atmosphere was permeated with a yearning to seek and impart knowledge. Psychology was writ large on the forehead of each teacher, and the results of the study of it flowed out with every word spoken by each teacher. About 3,000 dollars, or 600 pounds, were spent in conveying the children to school. The Principal of that school, with 150 pupils in the Primary and 60 in the High School, received 400 pounds a year, with a carriage "thrown in," whilst his nine assistants were receiving from 104 pounds to 192

pounds a year. The system pursued in America was laying the seeds for the future, with the probable consequence that the Americans would put on one side in the commercial world the products of the educational system prevailing in this country. Ought they not to educate public opinion to remedy their defects until they could get the necessary facilities in their villages, to educate their rural children, in a rural central school, where more emulation existed and more opportunities were forthcoming to develop the faculties which the teachers, by their best efforts, had only just awakened?

A letter from Mr. Clayton to Mr. Eaton is here reproduced in part:—

APPLETON, BOLTON PERCY, R. S. C.

ENGLAND, 7 February, 1907.

Dear Mr. Eaton,—I want to take your school as my typical rural consolidated school for the report to be published, and so am writing to ask if you will kindly supply me with the following particulars, viz:—

- I. Number of children in each grade.
- II. Average age of each pupil in the separate grades.
- III. Qualification of each teacher in charge.

I can honestly affirm that I did not visit a better school whilst in America than yours. If you only had school gardens and took some horticulture and agriculture, I should consider it a perfect institution.

Yours fraternally,

WILLIAM CLAYTON.

Music.

Mr. Boyd's report is as follows:—

TO THE SCHOOL BOARD, WESTON:

It gives me pleasure in being able to chronicle a successful year in the study of music throughout the schools of Weston.

The regular grade teachers have readily understood the work laid out, and have thoroughly carried out all plans and methods suggested.

There is a satisfactory spirit and healthful interest shown towards music as a study, especially in the upper grades, where results naturally are looked for.

What I said last year in reference to the assistance of a pianola (or instrument of the kind) should not be lost sight of.

The children ought to have an opportunity of knowing something of the great mass of music that is in the world, ready at hand and easily obtained. A piano-player would open up wonderful possibilities. Not many homes offer advantages of any kind in a musical direction. We need a better musical atmosphere for the children to grow in.

Respectfully submitted,

FEB. 28, 1907.

CHARLES E. BOYD.

Manual Training.

Mr. Perry's report to the Committee is as follows:—

TO THE COMMITTEE:

The work in this department is proceeding with encouraging interest on the part of the pupils and a more general desire to attain to a standard of excellence in workmanship and exactness in measurement.

Sixty-two children in the three upper grades are enrolled, comprising 45 boys and 17 girls.

Of these the sixth grade contributes 22, the seventh 20 and the eighth 20.

Suggestions from the pupils themselves, regarding objects of especial interest which they desire to make, are gladly welcomed and carefully considered by the instructor from the point of physical fitness and manual skill, and, whenever possible, encouragement and aid are given the pupils in putting into concrete form his own ideas.

Thus far the estimate of the pupils' powers has not failed to be confirmed by the granting of such special permissions. An exhibition of the work of the school was held in June, at the close of the school year, and was largely attended. The room is open on Monday and Thursday mornings, and parents and friends are most cordially invited to visit the classes, to the end that they may better appreciate the value of the work to the child.

Respectfully submitted,

PHILIP E. PERRY,
Instructor.

Drawing.

Miss Jewett reports as follows:—

TO THE SCHOOL COMMITTEE:

Each year more effort is given to make the work in drawing form a vital part of the whole course of study; not an exercise by itself, but a help in

all the lessons. It gives me pleasure to report that the work the past year has been an improvement along this line. The papers in arithmetic are neater in appearance, the problems being well placed on the paper. A margin each side of the written work adds beauty to the written page. The illustrations for the language show a better knowledge of proportion, more thorough on the part of the pupil. The map drawing is more artistic by the use of delicate tints of color and a clear definite outline.

The children have shown great interest in the study of the trees, the birds and insects. Their drawings show careful observation, and good proportion, which is the essential of drawing.

The work in the High School has been gaining each year. Considering the time given to the work, the results have been most satisfactory. Pupils have been encouraged to apply their designs to the object, and work them out in wood or embroidery. The boys fitting for technical schools have done excellent work. Mechanical drawing has been introduced into the sophomore class, thus giving more time to the subject.

Last month all Supervisors of Drawing in the Metropolitan District were invited to meet the Director of the Museum of Fine Arts. The purpose of this conference was to see how best they could co-operate in bringing the wealth of material which the Museum contains to the teachers and pupils. At present they have opened a room known as the class room, where a teacher can, by appointment, bring a class, and the illustrations selected will be brought to the room. A lantern is also provided. In the new building more class rooms will be provided, also the different processes of printing will be shown. Free tickets to the Museum of Fine Arts have been given to the teachers.

If we can get the pupils to look at the beautiful works of art, they are led to appreciate beauty and their lives are broadened and enriched.

DECISION OF THE JUDGES.

TENOR SOLO AND CHORUS.	Arise! Shine!	Dr. Boyd and School.
------------------------	---------------	----------------------

The Reverend J. A. Day, Mr. Arthur L. Coburn and Principal J. F. Butterworth of Monson Academy kindly acted as judges, and awarded the prizes as follows: first prize for girls, Hattie M. Trask; second prize for girls, Adelaide McKenna; first prize for boys, Gardner Tucker; second prize for boys, Anthony Sheehan.

All of the speaking seemed to be of a high order of excellence, and the music of the evening reflected much credit on the pupils and on Mr. Boyd.

Health of School Children.

It was found necessary to close the school at District No. 4 for about two weeks in March, 1906, on account of measles. With this exception, the schools have happily suffered very little interruption in their work through illness of the children. Much of the exemption of the pupils from influenza and kindred diseases is due to the prompt and efficient action of the Board of Health in thoroughly disinfecting the school buildings at a time when colds were very prevalent in this vicinity.

Donations.

The Grammar School building has received from Mr. F. H. Hastings two pictures, "A Group of Cherubs," and "The Stuart Prince." It has also received from the High School a picture of the Capitol at Washington.

The High School has also presented to the school at District No. 4 a picture, "The Three Horse Sledge."

Instruction in Swimming.

At the annual town-meeting, on March 26, 1906, the Town voted to appropriate the sum of \$500 for the instruction of the school children in the art of swimming. This

instruction has been carried on at the swimming pool of the Weston Athletic Association during so much of the year as was suitable for the purpose, with very satisfactory results. The Committee has expended for this purpose the entire appropriation.

Conveyance of Pupils.

There has been no change in the arrangements for the conveyance of pupils since our last report, with this exception, that it was found necessary to put on an additional horse on the barge running from the south part of the town.

School Buildings and Grounds,

Mr. Franklin G. Cooper resigned his position as Custodian for year 1906-1907 of all school grounds and buildings in use, and on July 2, 1906, the Committee appointed Mr. Allen Cameron to succeed Mr. Cooper.

Telephones are now maintained by the School Committee as follows: in High School, in Schools No. 4 and No. 5, and in the houses of Mrs. Burrage and Mr. Eaton. The Committee and Superintendent have found these telephones highly useful, and feel that the advantages arising therefrom far outweigh the expense of the same.

Scholarship and Course of Study.

The course of study remains the same as last year, and the former excellence of scholarship has in general been well maintained.

School Text-Books.

At the regular meeting on Oct. 2, 1906, the Committee voted to adopt the following books: Allen & Greenough's New Latin Grammar (Ginn & Co., 1903); Newell's Descriptive Chemistry (D. C. Heath & Co., 1906). On Dec. 4

the Committee voted to purchase "The History of the United States of America," by Henry W. Elson (Macmillan Company, New York), for use in the Grammar School.

Appropriations.

At the annual town-meeting held March 26, 1906, the following appropriations were made for the schools: —

Salaries of Teachers	\$8,750
Incidentals	4,000
Conveyance of Pupils	4,000
Text-books	600
Manual Training	500
	<hr/>
	\$17,850

The Committee respectfully recommend that the same appropriations be made for the year 1907-1908.

The unexpended balances in the different parts of the appropriation for the year just closed are as follows: —

Salaries of Teachers	\$237 02
Incidentals	204 08
Conveyance of Pupils	77 25
Text-books	255 61
Manual Training	14 14
	<hr/>
	\$788 10

The Town, at the same meeting, made a special appropriation of \$500 for instruction in swimming, as noted elsewhere in our report. The Committee recommend that the Town appropriate the same sum for the year 1907-1908.

Salaries of Teachers.

The matter of salaries to teachers in the public schools has been and still is attracting much attention in the public press and elsewhere. It is said that the cost of living has increased within recent years and that the salaries of teachers have increased but little or not at all. The Mid-

dlesex County Teachers' Association has recently investigated these matters. The report shows that data were secured from the eleven cities in Middlesex County and also from eleven of the towns, including Arlington, Belmont, Concord, Framingham, Lexington, Natick, Reading, Stoneham, Wakefield, Watertown and Winchester. The average increase in salary for the twenty-two communities during the last ten years has been 10.8 %, while the average increase in cost of living for teachers in the same communities has been 19.3 %. Salaries have increased, but the cost of living has increased nearly twice as much.

The effort of the community to improve the schools means greater effort on the part of the teachers to fit themselves for the positions. And this means a greater outlay of time and money in the work of preparation. Another association, the Massachusetts Teachers' Annuity Guild, seeks to provide for teachers who have been retired after long service. The Guild finds such a step necessary, or at least desirable, for the reason that the salary which many teachers receive is insufficient to provide for their present needs and future comfort. In the Guild's view a pension system in some form is desirable.

The School Committee of Weston believe that the citizens of the town have recognized the fact that as the expense of living has increased, the salaries of teachers should increase also. The town has desired to secure the best teachers available and has been willing to pay them adequate salaries. This is one method of meeting the need which the Teachers' Guild seeks to meet by a different method. But the need of providing suitably for the teachers in our schools must be met in some way. If we would have good teachers we must make it worth while to teach.

Necessity for More School Room.

The overcrowded condition of our Grammar School building, which was noted in our report of last year, still continues. At the last annual town meeting the Committee asked for an appropriation of \$10,000 to build a two-room building for the children of the lower grades, thus relieving the large building. This appropriation was not granted, but the Town instead appointed a Committee consisting of Mr. F. H. Hastings, Mr. A. L. Coburn, Mr. H. L. Brown, Mr. H. J. Jennison and Mr. Livingston Cushing, to consider the whole question of school accommodations, and to report to the Town. The matter is still in their hands.

Report of the Park Commissioners.

The Park Commissioners submit their report for the year ending Feb. 28, 1907, as follows:—

	DR.	CR.
Balance March 1, 1906	\$576 44	
Received for rent of park land	90 00	
Interest	9 53	
P. C. Baker, repairs to fence		\$28 55.
Balance Feb. 28, 1907, in Boston Safe Deposit and Trust Co.		647 42
	<hr/> \$675 97	<hr/> \$675 97

Plans have been prepared, specifications drawn, and a contract let for the construction of a new bridge across the Charles River at Park Road, Newton Street. The thread of the Charles River at this point is the boundary line between the city of Newton and the town of Weston, therefore the expense of the bridge is to be shared jointly by the town and city.

Bids for furnishing the material and labor for the bridge were received by the Joint Committee of the city of Newton and town of Weston Aug. 7, 1906.

The contract was awarded to the William H. Mague Company, the lowest bidders, at \$14,785.50.

The specifications call for a two-span arch bridge forty feet wide, built of concrete reinforced with twisted steel rods. The bridge was to have been completed Dec. 1, 1906, but owing to numerous delays on the part of the

contractor, it is now less than half built. A temporary foot bridge has been thrown across the stream, expense of which borne by the contractor, and the work abandoned during the freezing winter weather. All possible pressure will be brought to bear by your Commissioners to have the bridge completed early in the summer.

By an agreement between the city and town, the inspection and engineering work has been done by the City Engineer's office of Newton, the Town of Weston paying one half the expense of engineering and other incidental expenses, and one half the contract cost.

Appropriation by the Town of Weston . . . \$8,000 00

The expenditures by the Town to Feb. 1, 1907,
have been as follows:—

Driving test wells and incidentals . . .	\$197 95	
Wm. H. Mague Co., con-		
tractors, amount paid, . . .	\$2,756 23	
50 % of amount reserved, . . .	306 25	
	<hr/>	3,062 48
Engineering and inspection . . .	309 13	
	<hr/>	3,569 56
Balance of appropriation available for		
completion		<hr/>
		\$4,430 44

Wm. H. Mague Company, the contractors, gave a bond of \$5,200 for the proper completion of their work. In consideration of the time for the completion of the bridge having been extended, an additional bond of \$3,000 has been given by a second surety company.

Report of the Public Library Trustees.

The Public Library Trustees have the honor to submit the following report for the year ending Feb. 28, 1907 :—

The Trustees receive the income from the following funds :—

The Charles Merriam Fund	\$1,000 00
The Isaac Fiske Fund	300 00
The Charles H. Fiske Fund	100 00
The Charles A. Gowing Fund	1,000 00
The Henry A. Gowing Fund	5,000 00
The Herbert Merriam Fund	1,000 00

The investment of the above funds stands as follows :—

Newton Savings Bank	\$1,000 00
West Newton Savings Bank	1,000 00
Waltham Savings Bank	1,000 00
Malden Savings Bank	1,000 00
Cambridgeport Savings Bank	445 11
Bonds of American Telephone and Telegraph Co. .	3,954 89

The income from these funds is to be expended for books and periodicals, and by the terms of the gifts cannot be used to pay the incidental expenses of the Library.

By vote of the Town, the Trustees receive also the proceeds of the dog tax, which averages not far from \$450 per annum.

For the seventeenth year in succession, Mr. Francis

Blake has placed at the disposal of the Trustees the salary of his office as member of the Board of Selectmen, amounting this year to \$100 ; and, in addition, he has promised such further gifts as will enable the Trustees to buy, at his suggestion, for the Reference Room, the most valuable and costly set of reference works that the Library has ever possessed, namely, Sargent's "The Silva of North America," costing \$350. Thanks largely to this giver, there are few libraries richer in reference works than ours.

The Library has also acquired by purchase the second of the unique manuscript works of the late Frank W. Bigelow, Esq., described in our last report, and at that time in our keeping as a loan. It was felt by the Trustees that both these volumes should be owned by Weston, and would be of increasing interest and value in years to come.

Another recent acquisition of interest, to which attention is called, is a number of sets of stereoscopic pictures covering scenes of interest in various foreign countries, with several hand stereoscopes for viewing them. These pictures, thus viewed, give remarkable depth and impression of reality, and serve as an excellent series of "Travels at Home." Although intended mainly for use at the Library, these sets may, at the discretion of the Librarian, for special purposes, be taken out as if books.

From Mrs. Hornbrooke has been received a sketch of the life of her husband, the late Rev. Francis B. Hornbrooke, at one time minister of the First Parish of Weston.

From Mr. Grant Walker has been received "Italian Lakes."

From Mr. Frank Merriam, the "Merriam Genealogy."

From Mrs. Charles J. Paine Jr., "Expeditions of Capt. John Lovewell."

From Mrs. Daniel S. Lamson, a framed portrait of Gov. Andrew, and from Mr. Francis H. Hastings, a reading-glass.

A full account of receipts and expenditures will be found in the reports of the Library Treasurer and the Town Auditor for the current year; and for particulars as to the growth and the use of the Library, we refer to the annexed report of the Librarian and to the list of new books at the end of the general Town Report.

While it will be seen that the number of new volumes added to the Library this year is noticeably less than that of the previous year, we believe there will be found a larger proportion of worthy and valuable books.

It is the aim of the Trustees to place in the Library, so far as the funds at their disposal permit, all books of reasonable cost which in their judgment have permanent value, provided they are works of general interest to a considerable public. Their difficulty of choice becomes greatest among the works of fiction. They find that the publications of this class each year come, in general, under about four heads:—

First. Works by authors of standing, merit and reputation.

Second. Books by newer and less-established authors, which, nevertheless, have literary merit, and some prospect of more or less permanent life.

Third. Books of absolutely ephemeral value, without literary merit, but more or less interesting or amusing for the moment, and, in a general sense, harmless, though trivial and short-lived. They might be called “vacation” or “hammock” books. This class comprises the greater part of the fiction published each year, and seems to be in the greatest demand by the public at large.

Fourth. Novels objectionable, either in subject or tone or treatment.

The Trustees are prompt to place in the Library all of the first two classes, and feel obliged to satisfy to a reasonable degree the constant demand for the third class. The fourth class they would wish to exclude entirely ; but the dilemma arises when authors of the first and second class write books of the fourth class ; when the author deserves and has won recognition, but has chosen a subject or a treatment not suited for indiscriminate reading or general circulation. This seems to be an increasing tendency, and a growing embarrassment in the selection of fiction for a village library.

It is now more than ten years since the last catalogue of the books in the Library was issued. It is true that the card catalogue contains complete lists of all the books in the Library under a convenient and comprehensive classification. But this is available only to those who go personally to the Library to use it, and the Trustees believe that many persons still prefer the old way of selecting their books at home, while not a few are unable, for various reasons, to go in person to the Library.

At present, to ascertain at home whether a given book published during the past ten years is or is not in the Library, or, perhaps more frequently, to ascertain at home what books have been added within ten years, one must go through the entire ten copies of the accession lists, issued either separately or bound with the Town Reports.

We, therefore, think the time has come to classify and sum up in a single volume the contents of these ten accession lists, thus bringing within the two volumes, the old and the new, all the books in the Library. This volume will not be so large nor so elaborate as the present

catalogue, but will serve as a very useful supplement to it.

We are, therefore, asking of the Town for this purpose, if they approve of it, an increase of \$800 to our usual appropriation, making the total appropriation \$2,800.

Report of the Fire Engineers.

WESTON, MASS., Feb. 28, 1907.

To the Selectmen of Weston:

GENTLEMEN: The Board of Fire Engineers and Forest Fire Wards herewith submit their annual report for the year ending Feb. 28, 1907.

The Board organized April 12, 1906, as follows: B. R. PARKER, *Chief*; N. S. FISKE, *First Assistant*; B. H. DICKSON, Jr., *Second Assistant and Clerk*.

The building fires have not been as numerous as in the previous years, and there have not been as many wood and brush fires. In April several boys were caught setting a wood fire, and they were put on probation by the District Court at Waltham, and fined the cost incurred by the Town by the fire department responding to the alarm. At all the fires, both building and forest, the fire companies have done good work, and in the judgment of your engineers remarkably well, taking everything into consideration, especially the difficulty which the companies at the center of the town labor under, with inadequate quarters, and with very bad means of egress, on account of which several serious accidents have been narrowly averted. We think it is about time the Town took serious consideration of this question of new quarters for the apparatus at the Center. As is quite well known, the present quarters are dark, damp, and in an out-of-the-way place. What is needed is a light, attractive, dry building, easy of access, centrally located,

with good quarters for the apparatus and a room of some sort for the members to use, and with a bedroom, so that one man could sleep in the building, and always be on hand at night at time of alarms. Such a building would increase interest, hold the members together, be a credit to the Town, and increase the efficiency of the department. In every other way the Town has progressed the last ten years, but the fire department is practically the same, and with the growth of the Town, the large number of new buildings which have been erected, we feel that the department should be kept up to its highest efficiency.

During the past year we have, in accordance with the vote of the Town, extended the fire alarm from the Methodist Church on North Avenue to Concord Road, and thence to Central Avenue, with an alarm box at Silver Hill. We have also put in a great deal of new wire in various places and placed an alarm box at the corner of South Avenue and Wellesley Street.

The fire alarm system is in good working order, but there are several places where new wire is needed to replace the old, which has rusted out. This year we used rubber-covered wire entirely in replacing and extending, as we think it is much more economical for the Town, as it lasts much longer. We think that the Town should appropriate \$500 this year, to be used in replacing the old wire. The fire alarm, on account of its battery system, has practically reached the end of its rope, as far as extension goes, as the battery is carrying all the load it is able, and our aim is to keep what we have in the best possible shape.

Report of the Overseers of the Poor.

The Overseers of the Poor respectfully submit the following report for the year ending Feb. 28, 1907: —

The Board organized with Mr. Edward P. Ripley as Chairman and Dr. W. B. Robbins as Secretary.

The contract with Mr. Henderson for care of Town Farm and inmates has been continued this year under practically same terms with satisfactory results.

There have been three inmates at the Town Farm the past year: Joseph Seaverns, admitted Dec. 22, 1885; James Keefe, admitted March 5, 1906; Harvey Bacon, admitted June 15, 1906.

We would ask for an appropriation of \$1,000 for the ensuing year.

Report of the Board of Health.

The Board of Health of Weston respectfully submit the following report for the year ending Feb. 28, 1907: —

Upon the suggestion of Mr. C. M. Eaton, Superintendent of Schools, a conference was had relative to the fumigation of the schoolhouses. This step was deemed advisable, and the matter was attended to at the close of the fall term.

Dr. F. T. Hyde, Medical Adviser, reports no cases of illness found among the pupils in the schools on a recent examination. It may be pleasing to know that, notwithstanding the increase of population, the number of cases of contagious diseases has steadily decreased from 15 cases in 1902 to 3 cases in 1906 (aside from the epidemic of measles, of which no cases have been reported since June).

The water in the stream running from Linwood Avenue to School Street has been lowered about one foot, by the relaying of the walls between the estate of the late Daniel Smith and the land owned by the Jones heirs.

Mr. Geo. W. Cutting was reappointed agent for the Board, to receive certificates of death and to issue burial permits.

The following licenses were granted: —

UNDERTAKERS. — Mr. F. G. Cooper, Mr. P. J. McAuliffe, Mr. F. H. Upham.

TO MAINTAIN SLAUGHTER HOUSES. — Messrs. Henry Zoller & Sons, Mrs. Kate Sheehan.

TO COLLECT SWILL. — Mr. Amri Barker.

Number of contagious diseases reported: —

Scarlet fever, 1; tuberculosis, 1; typhoid fever, 1; measles, 9.

Number of plumbing inspections, 6.

Report of the Cemetery Commissioners.

The Cemetery Commissioners respectfully submit their report for the year ending Feb. 28, 1907, as follows: —

At the annual town meeting on March 26, 1906, Mr. William T. Burrage was re-elected a member of the Board for three years.

During the past year Henry L. Brown has served as Chairman of the Board, and William T. Burrage as Clerk.

The work of grading lots and constructing new avenues in the new portion of Linwood Cemetery has been continued so far as the appropriation allowed.

The presence of the gypsy and brown tail moths has caused quite a large additional expense, but, so far as the cemetery grounds are concerned, we think the danger has been removed.

The money received from the care of lots has been expended for labor on the grounds.

The Commissioners would recommend an appropriation of \$2,500.

Report of the Committee on Better School Accommodations for the Town of Weston.

At a town meeting held in the town hall of Weston, April 30, 1906, the following vote was passed: —

Voted: — That a committee be appointed to further consider the matter and report at the next annual town-meeting, or, if they deem it necessary, that they report prior to the annual town-meeting. Said committee to be empowered to employ an architect, if deemed advisable, and such other assistance as they may require, and incur such expenses as in their judgment may be necessary to prepare a comprehensive plan or plans providing for the present and future needs of our schools and their surroundings, and that the sum of One Thousand Dollars be placed at the disposal of this committee for such work.

In pursuance with this vote a committee was appointed by Mr. Charles H. Fiske, the Moderator of the meeting, made up of HENRY L. BROWN, *Chairman*; FRANCIS H. HASTINGS. LIVINGSTON CUSHING, HENRY J. JENNISON, ARTHUR L. COBURN.

During the year Mr. Coburn resigned from the Committee, and this report is made by the four remaining members.

Your Committee finds that the Grammar School at the centre of the town is very crowded with scholars, and larger accommodations are necessary. To remodel this building to fit the needs of the Town, or build a new two or four-room building for the overflow of the scholars, can only be done at such an expense that it renders such plans inadvisable, and your Committee have concluded

that the best of the plans which they have considered for larger accommodations is a new eight-room building, to be built in the rear of the existing Grammar School building.

Your Committee have visited many recently built schools, have had plans drawn, and have finally selected the plans drawn by George C. Wales, which will be submitted to the annual town meeting. The detail specifications of these plans call for an expenditure of approximately fifty-five thousand dollars (\$55,000), and your Committee recommends the building of such a school-house.

Report of the Committee on Improved Methods for Caring of Highways.

BOSTON, MASS., Nov. 28, 1906.

The Town of Weston.

GENTLEMEN: Your Committee appointed at the last annual town meeting to investigate and report in regard to an improved method of caring for the town highways have given the matter placed in their charge due consideration. Realizing at the start that the problems presented in this town were undoubtedly such as have been met and adjusted in many other places, we decided to consult the members of the Massachusetts Highway Commission and obtain their opinion, feeling sure that their wide experience would enable them to point us in the right direction. We accordingly invited them to visit our town and go over the highways with us, and give us the benefit of their advice, and to offer any suggestions for the improvement of present conditions which their experience might suggest to them.

Mr. Wm. E. McClintock, Chairman, and Mr. Harold Parker accepted the invitation, and visited Weston on July 16. They were shown about the roads in the village and through a portion of the outlying districts, and after due consideration forwarded to the Committee the following letter, under date of July 31, embodying their views and recommendations:—

Special Committee of the Town of Weston,

CHARLES H. JONES, *Chairman.*

GENTLEMEN: The problem which you present to us appears to be one of policy and administration rather than the specific treatment of any one or any particular

line of roads within your territory. Considering the question, then, in this light, there seems to be no doubt from our point of view that an administration somewhat as follows would meet your requirements, as it has in some other towns which have adopted it.

It has been found that a Board of Road Commissioners should be chosen by popular election, as provided by law, but that these Commissioners should be selected as representing the town as a whole and not any particular section, and the selection should fall upon persons fitted to deal with the matter in a broad and liberal manner. It should, in our judgment, be determined by the town, by vote or otherwise, that no member of such a board should have any financial or personal interest in the employment of men or teams, or the purchase of supplies, and it should be the duty of the Board to select and appoint a suitable superintendent who should have entire and complete charge of all work determined on by the Board. If such a man cannot be found within your town, you should seek for him elsewhere. He should be paid a sufficient salary, and he should be held responsible for the proper execution of all work necessary for the proper maintenance of your roads and the construction of all specific work, as determined by the Board.

It should be borne in mind that the new location of any roads must, by law, be presented by petition, with plans, to the Road Commissioners, and can only be brought to a town meeting through its act.

We find much excellent material for road-building in Weston and we do not hesitate to say that under a plan such as we have here outlined, and the expenditure of an amount of money such as it is customary for you to appropriate, as we understand, all your roads can be built and maintained in a highly satisfactory manner. We recommend the use of gravel except on the very much used thoroughfares, where the use of macadam will probably be more economical.

The town of Weston being within that portion of the State, which comes especially under my direction, I have signed this letter as being my special duty, but Mr. McClintock agrees with me in the views herein expressed.

Very respectfully yours,

(Signed) HAROLD PARKER,

For the Commission.

The letter was considered by the Committee, and after full discussion it was decided that the suggestions of the Commissioners were wise and if adopted would be a benefit to the town of Weston.

While we have no specific criticisms to make in regard to any of the Road Commissioners, it is believed by many residents of the town, as well as your Committee, that the present method of road administration does not tend to

develop the most intelligent system of road-making, or the one that would ultimately benefit and improve in the greatest degree the entire town. We believe that the recommendation of the Highway Commission indicates a method which would be more in keeping with the present needs of the town, and more likely to meet successfully the problems that would be presented by its continued growth. Your Committee has therefore caused by-laws to be prepared which will operate to bring about the change in the character of the Board that seemed necessary to meet these conditions.

After considerable careful legal investigation, the three by-laws as shown below were thought to be adequate, and if adopted seemed likely to prove effective for the purpose in question. These were informally submitted to the Attorney-General and received his approval, and your Committee do therefore recommend their adoption.

SECTION 1. No town official and no salaried employee of the town or agent of any such official or employee shall sell materials or supplies or furnish labor to the town without the permission of the Board of Selectmen expressed in a vote which shall appear upon their records with the reason therefor.

SECT. 2. No town official and no salaried employee of the town or agent of any such official or employee shall receive any compensation or commission for work done by him for the town except his official salary and fees allowed by law without the permission of the Board of Selectmen expressed in a vote which shall appear upon their records with the reason therefor.

SECT. 3. The auditor in his annual report shall call attention to any apparent violation of this by-law which may come to his notice.

Committee on Playground Improvement.

WESTON, MASS., Feb. 28, 1907.

To the Selectmen of the Town of Weston :

At the annual meeting in March, 1905, the Town appropriated the sum of one thousand dollars for the improvement of the public playground on the school grounds on School Street, under the direction of the undersigned committee. The defects of the grounds, summarized in order of their importance, were: 1. The presence of standing water on the grounds during all wet weather. 2. The unsightly condition of the gravel bank along Maple Road. 3. The roughness of all but a small portion of the grounds. 4. The nearness of the base-ball diamond to the sloping hillside forming part of the outfield. 5. The lack of sufficient level ground for a football field.

It was hoped to remedy all the defects mentioned, on the appropriation made by the Town.

By new drains, careful levelling, removal of unsightly irregularities, paring down the bare contour of the gravel bank, and an economical use of all the loam upon the premises, with the purchase of such other loam as was absolutely demanded, a smooth field was obtained, free from surface water, with the diamond and practically all the outfield upon level ground. The bank is now in natural and pleasing form, and the difficult task of seeding its steep slope seems to have succeeded.

Defects 1 to 4, inclusive, have been remedied, but the

surveyor's figures proved it impossible to cut the field in its present dimensions to any one grade large enough for a football field.

If the Town should wish to continue the improvement of the field, the committee have assurances of sufficient of the land adjoining the field on the north side being presented to the Town under proper conditions, to permit grading and arrangement which shall give a level field of full football capacity; and the committee believe such action on the part of the Town would be wise and advantageous.

TOWN OF WESTON

RECORDS, 1906

Town Records, 1906.

IN BOARD OF SELECTMEN,
WESTON, MASSACHUSETTS, Jan. 13, 1906.

Voted:—That the New England Telephone and Telegraph Company of Massachusetts be and it is hereby authorized and permitted to erect and maintain poles and wires to be placed thereon, together with such supporting and strengthening fixtures and wires as said Company may deem requisite, in the streets and highways of said town as hereinafter designated.

A plan of locations hereby granted is filed dated January 13, 1906.

All constructions under this permit shall be in accordance with the following specifications: The poles shall be located between the travelled driveway and the limits of the highway, and shall be round and of chestnut or cedar, and the wires shall be run at the usual height and along and across the highway. After the poles and wires have been located as specified in this permit, alterations shall be made in the location or erection of the poles, and in the height of the wires, if so directed by the Board of Selectmen.

Following are the streets and highways above referred to:—

Summer Street, near Central Ave., 2 poles.

Alteration in location.

Said relocation to be done under the direction and subject to the approval of the Road Commissioners.

Signatures of Selectmen NATHAN S. FISKE.
 ALFRED L. CUTTING.

Received and recorded, Feb. 10, 1906,

by GEORGE W. CUTTING, *Town Clerk.*

COMMONWEALTH OF MASSACHUSETTS,
 MIDDLESEX, SS.

To any Constable of the Town of Weston. GREETING:

In the name of the Commonwealth, you are hereby required to notify and warn all the inhabitants of the said town, qualified by law to vote in elections and in town affairs, to meet in the Town-hall, in said town, on Monday the twenty-sixth day of March, at one of the clock in the afternoon for the following purposes, to wit:—

First. To choose a Moderator.

Second. To choose the usual Town Officers.

Third. To hear and act upon the reports of Town Officers and Committees.

Fourth. To accept the list of Jurors as revised by the Selectmen and posted according to law.

Fifth. To vote on a separate ballot "Yes" or "No" in answer to the question, "Shall licenses be granted for the sale of intoxicating liquors in this town?"

Sixth. To change the name of "Elm" Street to "Love Lane."

Seventh. To determine whether the Town will purchase a Steam Roller, provide a suitable place to house the same, and appropriate money therefor.

Eighth. To determine whether the Town will appropriate the sum of Five Hundred Dollars for the extension of the present concrete sidewalk on School Street to the junction of Wellesley and Newton Streets.

Ninth. To determine whether the Town will appropriate the sum of Ten Thousand dollars for the construction of a Primary School building (or such other sum as may be found necessary for said purpose), or take any action relative thereto.

Tenth. To determine whether the Town will employ an Engineer trained in road building to examine and report upon the roads and highways in the town, and suggest means for the improvement and proper construction thereof.

Eleventh. To determine whether the Town will authorize the Road Commissioners to consult an expert Engineer, who shall be a trained road builder and whether the Town will provide compensation for such Engineer.

Twelfth. To determine whether the Town will rescind its action heretofore taken in voting to elect Road Commissioners, and thereby abolish the office of Road Commissioner as provided by the Revised Laws, Chapter 11, Section 341.

Thirteenth. To determine whether the Town will vote to accept the provisions of Section 336, of Chapter 11 of the Revised Laws and elect a Highway Surveyor, according to the provisions of said section.

Fourteenth. To determine whether the Town will authorize the Selectmen to locate and maintain electric lights on the following streets:—Ash Street, Maple Road, Cliff Road, Chestnut Street and Summer Street (four lights from the junction of Central Ave.) and appropriate money therefor.

Fifteenth. To determine whether the Town will appropriate the sum of Five Hundred Dollars, or any other sum, to defray the expense of children resident in the Town for instructions in swimming and bathing, such instruction to be given at the Swimming Pool of the Weston Athletic Association.

Sixteenth. To determine whether any such appropriation as is referred to in the preceding article shall be expended under the direction of the School Committee, or otherwise.

Seventeenth. To raise and appropriate, by borrowing or otherwise, such sums of money as may be necessary for all or any of the purposes mentioned in the foregoing articles, or as may be required to defray the expenses of the Town for the ensuing year; and especially to act upon all the appropriations asked for or proposed by the Selectmen or by any Town Officers or Committees in their reports.

And you are to serve this warrant by posting three attested copies thereof according to the vote of the Town; namely, at the Town-house, at the Kendal Green post-office, and on the town bulletin-board at the junction of South Avenue and Newton and East Newton Streets, seven days at least before the time appointed for said meeting.

Hereof fail not; and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the time appointed for said meeting.

Given under our hands this eighth day of March in the year of our Lord One Thousand Nine Hundred and Six.

NATHAN S. FISKE,
ALFRED L. CUTTING,

Selectmen of the Town of Weston.

Pursuant to the within warrant, I have notified and warned the inhabitants of the town according to order.

NATHAN S. FISKE, *Constable of Weston*.

A true copy of the warrant and officer's return.

Attest: GEORGE W. CUTTING, *Town Clerk*.

MARCH 26, 1906. Pursuant to the foregoing warrant, a meeting of said inhabitants, qualified as aforesaid, was held at the time and place appointed.

The meeting was called to order and the Warrant read by the Town Clerk.

ART. 1. Charles H. Fiske, Esq., was chosen Moderator.

ART. 2. *Voted*:— That the meeting now proceed to choose the following town officers for the ensuing year or years; viz., one Selectman for three years; one Overseer of the Poor for three years; one Assessor for three years; one member of the School Committee for three years; a Treasurer and Collector; an Auditor; one Public Library Trustee for three years; a Public Library Treasurer; one Trustee of the Merriam Fund for the Silent Poor for three years; one Road Commissioner for three years; one Park Commissioner for three years; one Cemetery Commissioner for three years; one member of the Board of Health for three years; seven Measurers of Wood and Bark; three Surveyors of Lumber; three Fence Viewers; four Field Drivers; a Pound Keeper; seven Constables and a Tree Warden.

That these officers may all be voted for upon a single ballot, and that the polls be kept open for the reception of votes until three hours and thirty minutes of the clock in the afternoon.

The polls were then declared open for the choice of town officers.

Voted:—That the meeting proceed to transact other business while the polls are open for the reception of votes under Article Second; provided, however, that the Moderator may, from time to time, interrupt such proceedings whenever he deems it desirable to afford persons present an opportunity to poll their votes.

Voted:—That the reports of town officers and committees which have been printed and distributed through the town, be corrected as follows; viz.:—

On page 7, seven lines from top, for “280” read “270.”

On page 7, five lines from bottom, for “\$5,556,552.00” read “\$5,556,452.00.”

A. L. CUTTING,

Selectman and Secretary of the Board.

Received and recorded June 13, 1906,

by GEORGE W. CUTTING, *Town Clerk*.

Memorandum of agreement made this twelfth day of July, A. D. 1906, by and between the Town of Weston, a municipal corporation duly established according to law, party of the first part, and the City of Newton a municipal corporation duly established according to law, party of the second part, both situated in the County of Middlesex and Commonwealth of Massachusetts.

WITNESSETH:

That whereas it is proposed that the parties hereto shall build a bridge with the approaches thereto across the Charles River at Park Road in said Town of Weston and Concord Street in said City of Newton, according to plans made by the City Engineer of said City of Newton, and

Whereas it is also proposed that said bridge shall be constructed jointly by said Town of Weston and said City of Newton at an expense to be shared equally between the parties hereto, and

Whereas the said Town of Weston has authorized its park commission to act for it upon the matters herein contained, and the said City of Newton has likewise authorized its mayor to act for it, and the parties have agreed that the city engineer of the City of Newton shall act as engineer.

Now Therefore the said parties hereto mutually covenant and agree each with the other as follows:

First: That said bridge and the approaches thereto shall be built as aforesaid according to said plans, under the direction of said park commission and said mayor, and that said city engineer of said City of Newton shall have charge of the construction of said bridge and approaches thereto as engineer.

Second: That all the expenses of the construction of said bridge and the approaches thereto including all expenses of construction, labor and material, engineering and incidental expenses, and all other outlay connected therewith shall be borne equally by the parties hereto.

In Witness Whereof the said Town of Weston hath caused its corporate seal to be hereto affixed and these presents to be signed in its name and behalf by its Park Commissioners, David W. Lane, Henry L. Brown, Arthur

L. Coburn, and the said City of Newton, hath caused its corporate seal to be hereto affixed and these presents to be signed in its name and behalf by Edgar W. Warren, its Mayor, the day and year first above written.

The inhabitants of Weston in said County, by their petition to said Commissioners — among other matters — pray that Wellesley Street in said Weston from South Avenue to the town line between Weston and Wellesley may be relocated, as will more fully appear, reference being had to the petition filed of record in the case.

The petition was presented to the County Commissioners at their meeting holden at Cambridge, within and for said County, on the first Tuesday of June, A. D. 1905, when and where said Commissioners caused notice to be given to all persons and corporations interested therein of the time and place when and where they would meet for the purpose

of viewing the premises and hearing the parties, as by the notice on file and of record will more fully appear.

And at an adjourned meeting said relocation was adjudged to be of common convenience and necessity and thence said petition has been continued to this time.

And now said Commissioners make return of their proceedings in the premises, as follows: said Commissioners having given notice as the law directs, met at the Town Hall in said Weston, on the thirteenth day of September, in the year nineteen hundred and five when and where the parties appeared, and no person appeared to object.

And the premises having been examined, and all parties fully heard, said Commissioners proceeded to relocate said street as prayed for in said petition and the following description is a true description of said street as hereby relocated, under the provisions of section 12 of chapter 48 of the revised laws.

The Westerly line begins at a stone bound in the Southerly line of South Avenue, thence on a curve of 13.67 ft. radius bearing to the right 23.61 ft. to a stone bound in the present Westerly line of said Wellesley street, thence South $21^{\circ} 15'$ West 283.0 ft. to a stone bound, thence on a curve of 788.37 ft. radius bearing to the right 87.14 ft. to a stone bound, thence South $27^{\circ} 35'$ West 487.1 ft. to a stone bound, thence on a curve of 1012.64 ft. radius bearing to the right 693.7 ft. to a stone bound, thence South $66^{\circ} 50'$ West 104.9 ft. to a stone bound, thence on a curve of 253.21 ft. radius bearing to the left 351.59 ft. to a stone bound, thence South $12^{\circ} 43' 30''$ East 622.4 ft. to a stone bound, thence on a curve of 232.93 ft. radius bearing to the right 89.2 ft. to a stone bound, thence South $9^{\circ} 13'$ West 89.0 ft. to a stone bound, thence on a curve of 428.47 ft. radius bearing to the left 126.5 ft. to a stone

bound, thence South $7^{\circ} 42'$ East 282.4 ft. to a stone bound, thence on a curve of 391.41 ft. radius bearing to the right 148.58 ft. to a stone bound, thence South $14^{\circ} 03'$ West 582.2 ft. to a stone bound, thence on a curve of 450.58 ft. radius bearing to the right 159.38 ft. to a stone bound, thence South $34^{\circ} 19'$ West 562.5 ft. to a stone bound, thence South $33^{\circ} 00'$ West 483.9 ft. to a stone bound, thence on a curve of 1012.92 ft. radius bearing to the right 136.42 ft. to a stone bound, thence South $40^{\circ} 43'$ West 595.1 ft. to a stone bound, thence on a curve of 987.96 ft. radius bearing to the left 224.73 ft. to a stone bound, thence South $27^{\circ} 41'$ West 238.2 ft. to a stone bound, thence on a curve of 981.81 ft. radius bearing to the left 232.47 ft. to a stone bound, thence on a curve of 344.65 ft. radius bearing to the right 251.03 ft. to a stone bound, thence South $55^{\circ} 51'$ West 297.7 ft. to a stone bound, thence on a curve of 1309.18 ft. radius bearing to the left 202.21 ft. to a stone bound, thence South $47^{\circ} 00'$ West 400 ft. to a stone bound, thence on the same course 449.7 ft. to a stone bound, thence on the same course 313.1 ft. to a stone bound, thence on the same course 400.0 ft. to a stone bound, at the beginning of a curve whose radius is 610.2 ft. bearing to the left 220.27 ft. to an iron plug in a boulder, thence South $26^{\circ} 19' 00''$ West 490.1 ft. to a stone bound, thence South $32^{\circ} 54' 30''$ West 751.2 ft. to a stone bound, thence S. $40^{\circ} 19' 30''$ W. 348.8 ft. to a stone bound, thence on a curve of 158.47 ft. radius bearing to the left to the town line between Weston and Wellesley.

The Easterly line begins at a stone bound in the Southerly line of South Avenue, said stone being distant 54.25 ft. from the stone bound in the above described Westerly line at the beginning of the course running South $21^{\circ} 15'$ West 283.5 ft. thence the Easterly line runs parallel and

50 ft. distant from the above described Westerly line to an iron pipe, said pipe being distant 254.8 ft. from an iron pipe which is 50 ft. and at right angles to a stone bound in the above described Westerly line which marks the end of a curve of 450.58 ft. radius and the beginning of a course running South $34^{\circ} 19'$ West, thence the Easterly line runs South $30^{\circ} 33'$ West 95.9 ft. to a stone bound, said stone bound marking the end of the location of the northerly line of Glen Road as laid out by the County Commissioners in 1902. Thence the Easterly line begins at the stone bound at the end of the Southerly line of Glen Road and runs parallel and 50 ft. distant from the above described Westerly line to the line between Weston and Wellesley.

The above description is intended to conform to a plan dated 1906 to which reference may be had for a more complete description and on which the above described lines are shown in red.

The above courses are reckoned from the magnetic meridian.

And the said Commissioners determine and order that the inhabitants of the said town of Weston shall, on or before the first day of January, which will be in the year 1908, lay open, construct and complete said highway, so that eighteen feet in width thereof throughout the whole, exclusive of gutters on the sides, shall be safe for the passage of teams of every description with customary loads. The form and manner of construction shall be as follows:

Walls and fences forming the old boundaries of the street shall be removed from within the location above established where required, and a roadway properly crowned drained and graded, with its surface consisting of gravel or broken stone shall be built of the above width.

Guard rails shall be erected at all steep and dangerous places, swampy and soft bottoms raised to form a firm foundation, culverts of field stone or other suitable material constructed, the whole to be done in a workman-like manner to the acceptance of the Commissioners.

And the proprietors or occupants of the land over which said highway is laid out, are allowed until the first day of October, next, to remove therefrom any wood, timber, trees or other property. And said Commissioners having heard the proprietors of said lands by themselves or their agents on the subject of damages by them sustained by reason of laying out said highway, have determined that no damages are sustained and none are awarded.

And the said Commissioners further order and determine that the sum of five hundred (500) dollars is a fair and just proportion of the expenses of said relocation to be paid by the County, and said sum shall be paid out of the County Treasury into the Town Treasury of Weston whenever the Selectmen of said town shall present a certificate certifying that all claims by reason of said alterations have been settled and said street shall be completed to the acceptance of said Commissioners.

And the said Commissioners further determine and order that the said town of Weston shall pay all damages, costs, and expenses, if any, not included in the above award, that any party may by legal process obtain in consequence of said relocation throughout the whole of said highway, as hereby relocated, that the highway in said return be, and the same is hereby, established as and for a public highway, and that the same be recorded to the end that the same may hereafter be known as such.

In Witness Whereof, We, the said County Commis-

sioners, have hereunto set our hands this Twenty-eighth day of July in the year of our Lord one thousand nine hundred and six.

COMMONWEALTH OF MASSACHUSETTS,
MIDDLESEX, SS.

To any Constable of the Town of Weston. GREETING:

In the name of the Commonwealth, you are hereby required to notify and warn all the inhabitants of the said town, qualified by law to vote in elections and in town affairs, to meet in the Town-hall, in said town, on Tuesday, the sixth day of November, next at twelve of the clock noon, at which time the polls will be open and may be closed at four o'clock P. M. to bring to the subscribers their votes for the following officers, each to be designated and all to be voted for on one ballot namely: Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney General, Representative in Congress, fourth district, Councillor, third district, Senator, first district of Middlesex, Representative in the General Court, thirteenth Middlesex District, County Commissioner for the County of Middlesex, Clerk of Courts for the County of Middlesex, Register of Deeds for the Southern Middlesex District, County Treasurer for the County of Middlesex.

Also any other officers required by law to be chosen in the month of November of the current year.

And you are to serve this warrant by posting three

attested copies thereof according to the vote of the Town; namely, at the Town-house, at the Kendal Green post-office, and on the town bulletin-board at the junction of South Avenue and Newton and East Newton Streets, seven days at least before the time appointed for said meeting.

Hereof fail not; and make due return of this warrant, with your doings thereon, to the Selectmen, seven days at least before the time appointed for said meeting.

Given under our hands this twenty-sixth day of October, in the year of our Lord One Thousand Nine Hundred and Six.

FRANCIS BLAKE,
NATHAN S. FISKE,
ALFRED L. CUTTING,
Selectmen of the Town of Weston.

Pursuant to the within warrant, I have notified and warned the inhabitants of the town according to order.

NATHAN S. FISKE, *Constable of Weston.*

A true copy of the warrant and officer's return.

Attest: GEORGE W. CUTTING, *Town Clerk.*

Annual Election, November 6, 1906.

In pursuance of the foregoing warrant, the inhabitants of the Town of Weston qualified to vote in elections met in the Town-hall, in said town, on Tuesday, the sixth day of November, in the year of our Lord one thousand nine hundred and six, it being the Tuesday next after the first Monday in said month, and were called to order at twelve of the clock, noon, by Francis Blake, Chairman of the Board of Selectmen and Presiding Election Officer, who read the warrant calling said meeting, and the return

thereon of the officer who served the same upon the inhabitants.

In pursuance of and in conformity with the laws of this Commonwealth in relation to elections, the Town-hall had been fitted up as a polling place, a space railed off, and ten shelves or compartments provided for the use and convenience of the voters to examine and mark their ballots. Before the opening of the polls, the package of cards of instructions, specimen ballots, etc., furnished by the Commonwealth, had been opened, and the same posted in accordance with the provisions of the Revised Laws relating thereto.

Henry J. White and Edward Fiske, whom the Selectmen previously had appointed Ballot Clerks, were sworn by the Presiding Election Officer to the faithful performance of their duties.

The ballot-box to be used at elections was opened publicly by the election officers, who ascertained, by personal examination, and publicly showed, that the same was empty. The register of the box was set at zero (0), and the box immediately thereafter locked. The key of the lower part of the box was delivered to the Presiding Election Officer, and the key of the upper part to Nathan S. Fiske, a constable in charge of the meeting.

A package, supplied by the Secretary of the Commonwealth, marked "First Set 500 Ballots, Town of Weston," was delivered to the Ballot Clerks by the Town Clerk, who took their receipt therefor. The Ballot Clerks, who were provided with a list of the registered voters of the town, stationed themselves at the entrance to the polling place.

The polls were then declared open for the reception of votes.

At twelve hours and two minutes of the clock in the

While the polls were open the ballot-box was in charge of Alfred L. Cutting, and the voting list used in connection therewith was in charge of Nathan S. Fiske and Francis Blake.

In the canvassing and counting of votes, the regular election officers were assisted by Howard L. Cooper, George W. Cutting, Jr., Andrew Fiske, Charles H. Fiske, Jr., Charles C. Kenney, Grant M. Palmer, Edward P. Ripley and Henry A. Wheeler, who previously had been appointed Tellers by the Selectmen, and sworn by the Presiding Election Officer to the faithful performance of their duties.

The business of the meeting being finished, the returns were filled up, signed by the Selectmen, countersigned by

the Town Clerk, and sealed up in open town meeting, and delivered to the Town Clerk to forward to their several places of destination.

All ballots cast at the election were enclosed in an envelope, and the same properly sealed and endorsed.

The tally sheets used in counting the votes cast at the election were enclosed in an envelope, and the same properly sealed and endorsed.

The voting lists used in connection with the distribution of ballots and the deposit thereof in the ballot-box were certified by the officers who had had them in charge, and were enclosed in an envelope, and the same properly sealed and endorsed.

All unused ballots were enclosed in an envelope, and the same properly sealed and endorsed.

The four sealed and endorsed envelopes above mentioned, together with the ballot-box, the ballot-box keys and the seal, were forthwith delivered to the Town Clerk by the Presiding Election Officer, who in this and all other matters connected with the election, followed and caused to be followed the "Laws Relating to Elections," as prepared by the Secretary of the Commonwealth.

At six hours and twelve minutes of the clock in the evening, the meeting was declared dissolved by Francis Blake, Chairman of the Board of Selectmen and Presiding Election Officer.
